

Who We Are

Trewon Technologies, LLC provides services to State and Federal clients to support research and critical IT infrastructure services. Our proven methodology stems from over a decade of experience working with the federal government. We bring in depth knowledge of critical areas in health, health care policy, behavioral health, and education in remote, diverse, and vulnerable populations. We design and conduct large- and small-scale studies using multiple research methods, culturally competent practices, in-depth knowledge of historical and social factors, awareness and knowledge of intergenerational traumatic issues, and advanced data analytics to answer complex research questions.

Company Overview
